

$$S = \frac{1}{2} \cdot 8 \cdot 10 =$$

$$= \boxed{40}$$

$$P = 2a + 2b = 2 \cdot 10 + 2b = 56$$

$$2b = 36 \quad b = 18$$

$$h = \frac{1}{2} \cdot 10 = 5$$

$$S_{\square} = 18 \cdot 5 = \boxed{90}$$

Срп.1

$$a = (8 - 6) : 2 = 1$$

$$h = a = 1 \quad S_{\square} = \frac{8 + 6}{2} \cdot 1 = \boxed{7}$$
